

BROWN' SERVE FROZEN BAGUETTE

Preheat the oven to 275°C.

Lay the frozen loaf on the middle rack.

If you prefer using a baking dish, pre heat the dish before putting the bread in it. Otherwise the bottom of the bread will be soggy.

Bake for 8mn or until you reach the desired colour.

Let it cool down before cutting it.

⚠ Cutting it when it is still hot or even warm will result in bread being overly moist and appearing uncooked.
